**“Stories can conquer fear, you know.
They can make the heart bigger.”
Ben Okri**

At the heart of meaningful curriculum is the belief that play is the well in which all understanding and learning is drawn from. With the use of documented work, the workshop will weave stories of exploration and discovery through play in which the child’s potential is revealed and our opportunities for teaching are actualized

This workshop will look at the nature and purpose of play, how to provide for it and making a place rich for playful activities.

Open to everyone. Free admission.
