Are our children ready for school?

Early Development Instrument (EDI) 2006-2007 results for your community

This report shows the "readiness for school" of Kindergarten children in your community, based on results from the EDI. "Readiness for school" is a baseline of children's readiness to begin grade one. As children's readiness for school is influenced by their early years – and the family and community factors that shape children's early years—EDI results are a reflection of the **strengths** and **needs** of children's communities.

The following maps illustrate the per cent of children who were 'very ready' (top 30%) for school – within each of the 5 areas of early development – by Rural Municipality

Large % of children 'very ready'
 Moderate % of children 'very ready'
